

Strategic Planning

Hello everyone,

I am sure you have noticed over the past few years that there have been many renovations and upgrades to the Earl Grey Credit Union Building on Main Street in Earl Grey. Although the current improvements may not be as visible as the previous exterior upgrades and internal space reorganization; the replacement of the furnace, ductwork, ceiling and lighting are vital for the health and well-being of our employees and our business. Over the course of the summer, you will see a shingle replacement on our building as well. Ensuring that the EGCU Building is current and in good repair, tells the story of the vibrant business that we are. The building improvements make good strategic decisions for the long term health and well-being of EGCU.

The Board would like to thank the many local contractors who have worked with our General Manager on the Building improvements. There are so many talented and professional people in our community. We all can play a part in making EGCU a success. I encourage you to talk about the benefits of Credit Union membership to your neighbors and friends, come to the Annual Meeting. Seriously think about being on the Board, a wide variety of members and talents are needed to represent the membership. Do not discount yourself. 2018 is a celebration year for EGCU. The Board members look forward to seeing you as we celebrate 65 years and counting.

Respectfully,

Nadene Perry, President of Earl Grey Credit Union Board.
